## RQT PROGRAMME

Suitable for teachers in the first 2-4 years of teaching and those returning to teaching

In partnership with local schools we have developed a highly effective training programme mainly for teachers in their first few years of teaching, or for those who have been out of teaching.

This highly recommended course delivers training on key areas that will assist RQTs and returning teachers in developing effective practice. Part of the programme includes opportunities for lesson observations and training in a variety of schools. Subsequently, with the support of our experienced leaders and Specialist Leaders of Education (SLE) participants will evaluate the lessons and reflect in their own teaching.

### Programme Aims

- To ensure that RQTs gain the support they require in order to develop and reflect on their own practice
- To promote reflective practice based upon classroom observation of experience teachers

<b>Session 1</b> Differentiation	Half Day
<b>Session 2</b> Questioning	Half Day
<b>Session 3</b> Progress and Challenge	Half Day

The programme will be hosted in a range of schools to provide participants with experience of observing learning in different settings

Cost £225 (£195 for any additional RQTs)

Please send completed booking forms to Lucy Wood - Teaching School Coordinator
